United States Air Force:

ACC - Dyess Air Force Base, Texas;
AMC - Little Rock AFB, Ark.;
USAFE - Ramstein Air Base, Germany;
PACAF - Yokota AB, Japan.

Request

This request is made pursuant to the Freedom of Information Act.

I would like all documents relating to the use of Synthetic Vision in operating the C-130 (all variants) operated by USAF.

Synthetic Vision is defined by the FAA in FAA Title 14 Part 1 as follows:

Synthetic vision means a computer-generated image of the external scene topography from the perspective of the flight deck that is derived from aircraft attitude, high-precision navigation solution, and database of terrain, obstacles and relevant cultural features.

FAA Title 14 Part 1 is available at: http://ecfr.gpoaccess.gov/cgi/t/text/text-idx?c=ecfr&tpl=/ecfrbrowse/Title14/14tab_02.tpl

Synthetic Vision includes *Enhanced Synthetic Vision*.

If USAF calls *synthetic vision* by another name, including but not limited to *synthetic environment*, *virtual environment*, *synthetic reality*, *virtual reality*, or the like, this request includes that name.

Costs

I claim the journalist exemption. The answers to these questions are material to the articles/blogs I am writing called:

- 1. How NASA Treats Independent Inventors** at www.jmargolin.com/nasa/nasa.htm
- 2. How the United States Air Force Plays the Shell Game with the Freedom of Information Act and How They Treat Independent Inventors** at http://www.jmargolin.com/usaf/usaf_web.htm

Sincerely yours,

/Jed Margolin/
