NOTES/COMMENTS:
Dean

I hoped to talk to you before I sent this, but I really want the County to have this letter explaining our position before the Planning Commission meets on Friday night – so I thought I'd better just go ahead and fax it up. As you know, our primary goal is the preservation of the rock art and we will work with the County to achieve that goal in whatever capacity the County deems appropriate. I'm also sending you an outline draft of our current thinking on a preserve plan for Lagomarsino that we gave to Smith so that he would understand our position –this is a preliminary draft, but I wanted you to have a look at it before we go to the County in case you have any feedback. We value our partnership with Storey County and will work to make sure it continues long into the future.

Our Board President (Dr. Don Fowler) signed the County letter and Dr. Gus Quinlan (NRAF Deputy Director) will be at the Planning meeting and he'll have the original signed copy.

Also, I don't seem to have Mary Lou's fax number – could you get a copy to her for the Commissioners for me? Thanks
